

Komal Kriti | Interaction Designer

Recently graduated Interaction Designer I thrive at the intersection of empathy and creativity — turning complex problems into intuitive, meaningful digital experiences across mobile and web. Eager to join a collaborative team where I can contribute fresh perspectives, grow through real-world challenges, and help build products that genuinely make a difference in people’s lives.

Experience

Solve.it Design | UI/UX Design Intern

JAN 2026 – PRESENT | Bengaluru, India

Led the research phase for a municipal water utility operational intelligence platform, conducting secondary research, competitive analysis of existing SCADA and GIS monitoring systems, and system mapping to surface critical operational gaps.
Developed a full suite of research artefacts — stakeholder maps, personas, empathy maps, and workflow analyses — to ground design decisions in real utility operator needs.
Contributed to the design of a unified operational dashboard encompassing incident monitoring, investigation, and dispatch workflows.

Colorkandy | UI/UX Design Intern

AUG 2025 – SEP 2025 | Bengaluru, India

Event Booking App — Vendor Experience: Owned the vendor-side UX of an event booking platform, conducting secondary research and competitive analysis to map vendor pain points across the booking and management journey.

Designed end-to-end user flows, wireframes to high-fidelity prototypes in Figma; contributed feature suggestions and participated in branding discussions to ensure visual and functional consistency.

Avataar.AI | Graphic Design Intern

JAN 2025 – APR 2025 | Bengaluru, India

Produced visual and motion design assets for AI-driven 2D product experiences using Adobe Illustrator, Photoshop, and created Videos on Invideo .

Design Projects

CareWatch | Mobile App — Parental Awareness & Child Safety

Duration : 4 months

Designed a parental awareness app after interviewing 8 parents and identifying key concerns around screen safety and online exposure.

Built an intuitive interface that balances robust monitoring features with simplicity, enabling non-technical parents to practice responsible digital parenting without friction.

Cultiva | Platform — Agricultural Land Rental & Direct Trade

Duration : 4 months

Conceptualized and designed the UX for a platform connecting farmers, landowners, and buyers — informed by interviews with 10 people across the agricultural ecosystem to understand pain points around land rental, crop selling, and farmer exploitation.

Designed user flows, system structure, and interface screens with a focus on transparent transactions and accessibility for rural users with varying levels of digital literacy.
